

Specifications

SERVICES

- Deployment and Recovery Support

WINCH

1800mmL x 1250mmW x 2116mmH, Weight: 4.65T (EN12079)

- Line pull rating, 10t on outer wrap
- Drum 800mm wide x 324mm hub x 1000mm \varnothing flanges
- 26mm \varnothing (35x7 Grade 2070) RHLL galvanized wire rope
- Wire rope capacity 250m @ line pull rating (350m @ a lower line pull rating)
- Wire deployment, forward lead: 45° up to 15° down & vertically down
- Local & remote controls of winch and 2 x spare functions (25m hydraulic/electrical whip)

HYDRAULICS

- Hagglunds 41 Series Viking (147 Nn/bar, 9.7 lt/rev) motor
- Bi-directional double over-center valve and Hagglunds band brake
- Hagglunds Dual Speed Valve (High power/double speed) control
- Hydraulic Pump PVH with horsepower controller, load sense & two stage flow controller (50 lt/min @ 3500 psi & 80 lt/min @ 2000 psi)
- Integrated bunding

ELECTRICS

- 15kW electric drive
- 3 phase 415 VAC (50 Hz)/440 VAC (60 Hz) power
- Star / Delta starter power management
